## ABOUT MY CAREER

Hey there! I'm a computer science pro with a knack for web design and development. I've got a solid academic background in this stuff, so you can trust me to create awesome websites and web applications. My specialty is crafting dynamic and user-friendly sites using HTML, CSS, and PHP.

I've had the pleasure of contributing to the development of multiple websites and web apps throughout my career. I've always managed to meet project requirements and go above and beyond to exceed client expectations. It's all about using my technical skills to deliver top-notch results.

Feel free to ask me anything or check out my portfolio!
